01.

Establish your perfect theme

Select a theme that you'd like to begin designing with. You may have already chosen one for your wedding, which will be the foundation that your wedding florals will be based on.

A few themes to inspire you:

- ▶ Contemporary Minimalist
- ▶ Classic Glam
- ▶ Soft and Romantic
- ▶ Organic and Natural
- ▶ Southern Charm
- ▶ Rustic
- ▶ Industrial

02.

Dress up your venue

Fill small spaces with touches of flowers in every corner; dress large spaces with full green foliage and larger flowers. No matter the size or layout of your venue, we can create a magical experience suited to your theme.

Together, we will create a *strategy* around dressing your venue appropriately, and provide *suggestions* around supplementary decor items that will match your floral style, such as: candles, mirrors and slabs, votives, drapery, etc.

Some floral decor pieces to consider:

- ▶ Ceremonial floral archway and drapery
- ▶ Hanging pieces for your wedding signage
- ▶ Aisle flowers spotting your aisle with hints of green
- ▶ Organic and Natural
- ▶ Southern Charm

03.

Create your signature pieces

Build your wedding experience by selecting your key pieces. Whether you require the bare necessities, or all the bells and whistles, this is the stage where we determine which pieces will be vital for your wedding.

Must-have signature pieces:

- ▶ Bridal bouquet
- ▶ Bridesmaid's bouquets
- ▶ Boutonnieres
- ▶ Standing ceremonial arrangements
- ▶ Table garlands
